Ensemble Analysis to Ecological Rhythms

By Shomit Sirohi

I. One Movement of Cars

Ensembles of cars and even traffic pollution then is high vertical leadership of Sirohi, becoming caught in inhospitable weather and living ecology because this ensemble is directly attacked by the minister.

II. What then is the Attack?

In two movements – progressive and regressive, there can be seen the ensembles of black folk, white folk and even Fidel and others all being part of the regressive and progressive historical ensembles and history – but then comes daily life reasons as well – am I not free entirely none the less – that is where an attack comes from the minister and it affects those living ecological ensemble praxis – what is ecological living ensemble praxis – it is the choice Ice Tea over hot coffee – or even walking over taking one's own car – this rhythm of daily life loving people then are attacked by the minister.
